ABOUT THE STUDY

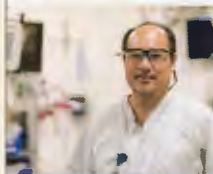

HereditGene is a multi-year research study to:

- Make new connections between genes and human disease.
- Develop new treatments.
- Increase our ability to predict and prevent serious diseases now and in the future.

HOW CAN I PARTICIPATE

Join online at
HereditGene.org or by
scanning the QR code.

Visit any Intermountain lab* to
donate a small blood sample.

**No appointment needed.*

Participation is voluntary and there's no cost to you. Learn more and get answers to frequently asked questions at **HereditGene.org**.

Some patients may participate with blood they've already given. If you've had a qualifying blood draw recently, the HereditGene study team may contact you.
